"Understanding is a wellspring of life to him who has it..."

7.9 EARTHQUAKE IN NEPAL APRIL 25, 2015

Wellspring Ministries Nepal - Pastor Daniel

This picture is about 800 meters (or half mile) from Daniel's property. Many are without homes, food or clothing.

At the time of the quake Daniel was serving communion to his congregation. They quickly ran outside into the open field and continued with a baby dedication, marriage covenant to a new couple and dedicated two new churches in the region. They spent much time in prayer for the whole country as well as thankfulness for being in a safe place. There was little damage to Daniel's house and church.

Currently Daniel is taking care of about 100 church family members and relatives with food and water. Many can not return to their homes as they have collapsed or will soon. Daniel's property has become "home to them in tents" until they are able to go back as they are still experiencing aftershocks.

The Wellspring water delivery truck is supplying water to victims at this critical time.

Wellspring Ministries of Nepal through Daniel supports 27 churches. Many of our pastors have been greatly affected by the quake in the villages.

We are in immediate need of assistance to help with food, water, clothes and shelter.

Thank you so much for your prayers at this difficult time. Many have lost everything.

Blessings on you for your faithfulness to the people of Nepal.

Pastor Daniel and Mana Limbu

OUR GOAL IS TO RAISE $10,000
